Invitation to Participate

The 2024 Canadian Nuclear Association Conference Ottawa, ON

January 4, 2024, Ignace ON.

The Township of Ignace is inviting any or all interested residents in the community to participate in the 2024 Canadian Nuclear Association Conference being held in Ottawa, Ontario on **February 28, 2024, thru to March 1, 2024.**

Our goal as a community is to have residents of Ignace learn more about the nuclear industry, as this factual information will play an important role in our on-going willingness process in 2024. If you have limited or no knowledge of what the Nuclear Industry is or how it operates, we encourage you to apply today to attend this very informative session in Ottawa.

The Township of Ignace Hosting Process Team would like to accept your application to this event in a letter format, detailing your reason for wanting to join this exciting opportunity in Ottawa.

Please send your Letter via email or in person to Keith Roseborough at the Township Office or email to cde@ignace.ca.

Thank you

About the CNA - Every year in Canada, nuclear technology helps avoid 80 million tonnes of carbon dioxide emissions by displacing fossil fuels and supplies 70% of the global supply of cobalt-60, radioisotopes that are used to treat cancer and sterilize medical equipment, among other things. It generates more than \$6 billion in revenue and creates more than 76,000 direct and indirect, well-paying jobs. Canada stands to solidify its leading position in the world's nuclear industry with the introduction of next-generation technologies in the form of small nuclear reactors. The Canadian Nuclear Association (CNA) has been the national voice of the Canadian nuclear industry since 1960. Working with our members and all communities of interest, the CNA promotes the industry nationally and internationally, works with governments on policies affecting the sector and endeavours to increase awareness and understanding of the value nuclear technology brings to the environment, economy, and daily lives of Canadians.
