To All Ignace Residents

Re: Electronic Voting

There have been some issues identified with the electronic voting system, this morning in Ignace.

A 9:15 a.m. CST, we received reports of some users experiencing an error message. To ensure that no other errors occur throughout the election, the Ignace office is conducting a full review of the system. Once it is completed, the online voting website will be available. Please watch for updates to this message, as we will advise when the election site is again fully operational.

We apologize for the inconvenience and thank you for your understanding.
