

Join a local working group

HELP SHAPE CANADA'S PLAN FOR USED NUCLEAR FUEL

As the Deep Geological Repository for Canada's Used Nuclear Fuel Project is moving into the regulatory process, the Nuclear Waste Management Organization is inviting expressions of interest to volunteer on local working groups.

Working groups will learn about and provide feedback on studies related to community well-being, safety and environmental aspects of the project. Join the conversation and share your insights.

Volunteers have until **Thursday, Feb. 19, 2026**, to express their interest.
