

## **PUBLIC STATEMENT**

### **Disposition of Commercial Property for the Township of Ignace**

Officials at the Township of Ignace have recently received some inquiries related to the potential sale of commercial properties owned by Township.

Please note that this statement will outline and clarify to the public and residents of the Township of Ignace that there have NOT been any sales, agreements or other arrangements made for the sale of access commercial properties. The Township Mayor and Council have directed staff to continue to proceed with discussions, negotiations and further dialogue with the potential to develop commercial properties within the Township's jurisdiction.

Staff officials, Mayor and Council will continue, as always, to follow by-law policies and procedures as established with respect to any future sales, agreements or disposition of Township property. Attached is a link that provides further clarification on this process. Communication on the potential to move forward with disposition of commercial property was also communicated to the public on March 13<sup>th</sup> and 23<sup>rd</sup> 2026, as well as discussed during the past two Regular Meetings of Council.
