Pine Street Culvert Update for the Community

August 31, 2023 – Ignace ON

Pine Street Culvert Update:

The Township of Ignace is pleased to inform the residents of the community that Council **will be awarding the tender** for work related to the Pine Street Culvert at a Special meeting of Council on September 06, 2023, and it is expected work could start a week later on September 11, 2023.

“We are so pleased that the funding to replace and rehabilitate the Pine Street Culvert has now been secured and the tender and work can move forward immediately. This is a very important infrastructure project for this community, and we are content that the work and repairs are moving forward beginning this Fall and being completed through the Spring of 2024”, stated Interim Mayor Baigrie.

The project will begin in September and be completed in the spring of next year. It is expected that Pine Street and the crossing will be remain closed through late Fall 2023 for both vehicle and pedestrian traffic.

The culvert repair work and roadwork will begin and take place this fall while the asphalt and concrete finishing work will take place in the Spring of 2024.

While construction begins and takes place throughout this Fall, we regret to inform our residents that there will be no pedestrian access to the crossing area. We apologize for this inconvenience.

After the construction period in the fall it is expected that the crossing will be open for vehicular traffic until construction starts again in the spring

We want to thank all of our residents in the Township of Ignace for their patience and ongoing support of our community projects.

Township Interim Mayor and Council
