**Re: Preliminary Findings – New OPP Detachment Project in Ignace, Ontario,
Government Property Class Environmental Assessment**

Dear Sir/Madam,

As mentioned in the Notice of Commencement issued on April 11, 2025, Infrastructure Ontario (IO) has retained GHD to undertake a Class Environmental Assessment (Class EA) for the proposed new Ontario Provincial Police (OPP) detachment located at the intersection of Highway 17 and Highway 599 in the Township of Ignace, Ontario (Project). The Project includes a new detachment and associated ancillary facilities and parking.

The Project has been categorized as a Category “B” project in accordance with the Government Property Class EA. A Class EA is a study that examines the potential environmental effects (positive and negative) of a proposed project and identifies ways to manage negative environmental effects before project implementation.

As part of the Class EA, two alternative locations for the new OPP detachment were evaluated and the location northwest of the Highway 17 and Highway 599 was identified as preliminary preferred alternative (**Attachment 1**).

Considering this, the potential environmental effects (positive and negative) of the Project as well as the proposed mitigation measures or ways to manage the potential negative environmental effects have also identified. **Attachment 2** provides a summary of the potential environmental effects of the Project and proposed mitigation measures and monitoring plans developed based on the preliminary findings from several studies and investigations carried out to date.

We encourage you to review the attachment and provide us with any information you deem relevant to the Project for our consideration in confirming the preferred alternative location and confirming the potential environmental effects and proposed mitigation measures/monitoring plans.

If you would like to request further information, ask questions, and/or submit comments on the Project, then please do so by **August 26, 2025**.

Sincerely,

Ian Dobrindt, MCIP, RPP, EP

1A. Existing Land Use Status	<p>The Project Area is situated in a commercial area of the Township of Ignace at the intersection of Highways 17 and 599.</p> <p>The Township of Ignace Official Plan designates the Project Area “Commercial” and the Zoning By-law zones the Project Area “General Commercial (GC)”. An “emergency service” is a permitted use in the GC zone. The new OPP detachment may be subject to Site Plan Control.</p>	<p>No amendments to the Township’s Official Plan and Zoning By-law are required for the new OPP detachment, but it may be subject to Site Plan Control.</p>
1B. Environmental Condition of the Property	<p>Three Areas of Potential Environmental Concern (APECs) were identified to be associated with the Project Area based on a Phase One Environmental Site Assessment (ESA). As a result, a Phase Two ESA was completed noting the following conclusions:</p> <ul style="list-style-type: none"> • No Contaminants of Concern (COCs) were identified in the soil and there is no evidence of soil impacts related to the APECs identified at the Site. • No COCs were identified in the groundwater and there is no evidence of groundwater impacts 	<p>No potential adverse effects presently anticipated.</p>

The perimeter of the Project Area includes a snowmobile trail to the western portion, many trails and a dirt track access from Highway 17 and Humphrey Road.</p> <p>The adjacent surroundings include a further commercial area and an industrial area. The commercial/industrial businesses in the vicinity include Gary's Towing & Equipment Xpress located south of Humphrey Road, Wood's Welding Equipment located northeast of Humphrey Road & Truck Repair, and Northwoods Motor Inn located on the northwest side of Highway 17.</p>	<p>The new OPP detachment will be located within a vacant portion of the Project Area, so no land uses will be displaced. The new OPP detachment will be sited in the Project Area with a planned minimum of 15 m setback around the entire site perimeter which is greater than the municipal setback requirements. As a result, no socio-economic adverse effects are presently anticipated.</p>

Re: Notice of Commencement – Ignace OPP – New Detachment Project, Government Property Class Environmental Assessment

Dear Sir/Madam,

On behalf of the Ministry of Infrastructure (MOI), Infrastructure Ontario (IO) has retained GHD to undertake a Class Environmental Assessment (Class EA) for the proposed new Ontario Provincial Police (OPP) detachment located in the Township of Ignace, Ontario (Project) (see **Attachment 1** for the *Notice of Commencement*).

The Project has been categorized as a Category "B" project in accordance with the Government Property Class Environmental Assessment (GP Class EA). Category B projects have the potential for some adverse environmental effects, but there are appropriate measures that can be applied to mitigate the effects.

Any information that you suggest we should be made aware of is appreciated, particularly as it relates to protection of cultural heritage resources, environmental, and natural heritage features.

If you would like to request further information, ask questions, and/or submit comments on the Project, then please contact me. Additionally, please let us know if other stakeholders wish to be added to the Project contact list to receive future notifications directly.

Sincerely,

1. Notice of Commencement

NOTICE OF COMMENCEMENT

GOVERNMENT PROPERTY CLASS ENVIRONMENTAL ASSESSMENT

New Ontario Provincial Police Detachment (N01760) Highway 17 and Highway 599, Ignace, Ontario

About the Project

The Ministry of Infrastructure, through Infrastructure Ontario (IO), is the proponent for a new Ontario Provincial Police (OPP) detachment (Project) located on the north quadrant of Highway 17 and Highway 599, Ignace, Ontario. The figure shows the proposed OPP site. The Project, which includes a new detachment and associated ancillary facilities and parking, is part of a larger effort to modernize OPP detachments across Ontario.

Class Environmental Assessment

IO has commenced a Category B Class Environmental Assessment (EA) of the Project under the [Government Property Class Environmental Assessment](#).

A Class EA examines the potential environmental effects (positive and negative) of a proposed project and identifies ways to manage negative environmental effects before project implementation. An important component of the Class EA process is consulting interested participants on a proposed project.

Please contact the following Project Team member to request further information, ask questions or submit comments on the Project, or to be added to the Project contact list to receive future notifications directly:
