### Water line Tips to help this winter

- First sign of a frozen water line is a drop in water pressure. Another sign is black specks or particles in your water or toilet bowl. Don't delay calling the Township office. There is still time to prevent the line from becoming frozen.

### STAFF ACTIVITY UPDATES

In a very short period of time, our township staff have worked diligently to keep our community moving forward through this PANDEMIC. As Mayor Lucas said since she was appointed Mayor in May, 2020, she has needed to create a new administrative team from the ground up. The township team is strong and cohesive and will take us through many exciting things over the next couple of years. The properties and vacant lots that the township was able to sell off will increase the township's tax revenue, but should result in some great developments for the community. If you look you will see some signs that this development is beginning.

Certain parts of the arena are still open, but with the uncertainty of Covid-19, the ice surface needed to be removed as the expense was too great to have it sit unused. Court sport hours are extended though, which is a definite need and bonus for our youth and adults that use the facility. The Canteen will be open limited hours. Check out the calendar @ [www.ignace.ca](http://www.ignace.ca).

Public works has been kept busy for some very long hours in relation to frozen water lines. Do your part to help by preventing this from occurring as there are inexpensive ways to prevent this from happening; even calling when you see the signs. All of the Christmas decorations came down on the Highway poles and we heard a great idea on our Facebook Page that we may need to look into as a replacement banner, but we don't believe the community will be disappointed with what is going to be put up.

Something new on the Township of Ignace website is “Ebills”. It is the orange button at the top of the homepage. Contact our financial department and they will be more than happy to assist our community members in signing up for Ebills. A shout goes out to Christy and her team for putting this service in place.

**GOOD LEADERSHIP IS AN IMPORTANT FACTOR IN ECONOMIC GROWTH AND SOCIAL WELL-BEING!**

## WHAT IS THE TOWNSHIP OF IGNACE EXPLORING?

Our newly formed committees will soon be meeting if they haven't already. We expect to see some great ideas from the Economic Development, Airport Advisory, and the Ignace Advisory Committees.

## IGNACE COMMUNITY NUCLEAR LIAISON COMMITTEE (ICNLC)

The ICNLC is a group of community volunteers who are instrumental in helping the community and the region learn more about Canada's plan for the long-term management of spent fuel through the Nuclear Waste Management Organizations Adaptive Phase Management (APM) plan. Do you want to Learn More? Tune in to the "Explore Our Possibilities" Symposium April 21<sup>st</sup>, 2021 discussing many topics surrounding Nuclear Waste and the Economic Development opportunities available in and to our community. If you would like to register for the Symposium, please email [icnlc.office@gmail.com](mailto:icnlc.office@gmail.com) to receive an invitation.

## LET'S INTRODUCE OUR STAFF

Kimberly Richards was born and raised in Ignace and works in the Township of Ignace office with the ICNLC (Ignace Community Nuclear Liaison Committee) as Project Coordinator. Kimberly organizes and facilitates programs in line with the Committee's goals, and assists with administrative tasks. Kim is currently utilizing her knowledge of visual arts and graphic design to assist in various projects within the Economic Development department of the Township. Kim is busy starting an online course in furthering her understanding of urban planning as she renders 3D models of concepts for exciting new developments in the town.

## IN THE KNOW – NUCLEAR WASTE

Did you know that 60 % of Ontario's power needs are met by nuclear energy?
